About This Game

Waves to the rescue! As a storm approaches, *Martha Madison: Waves* challenges players to use the science of waves to rescue Martha's animal friends. Working as virtual scientists, players use a powerful machine to create transverse waves along ropes and longitudinal waves through water. They adjust the amplitude and manipulate the energy level to save Martha's friends. Martha Madison, meerkat scientist and student mentor, is on-hand to guide students as they embark on science-filled, problem-solving adventures that bring complex concepts to life.

Martha Madison: Waves is part of a series of games designed from the ground up to enhance middle school-level science curriculum by captivating players and making complex concepts meaningful. All of the games in the *Martha Madison* series allow players to cooperatively solve real-world challenges that develop critical thinking, problem solving, technology literacy and adaptability.

Game Features:

- Single Player and Couch Co-Op Support
- Co-Op Keyboard Support (both players can play on a single keyboard)
