Sims 3 1.57 updated [patch release] I can't uninstall the 1.56 patch when the game is open, the game says it's an important update. I've tried to close and re-open the game to get a fresh launcher, I've also . Apr 12, 2014 I downloaded the new patch for 1.57 a couple weeks ago and since then I've been getting this error: "There was a problem updating your game. Contact the EA Customer Support team for more information. The errors are really different so I'm not sure what went wrong. May 3, 2014 When I go to the "Download Updates" button in the launcher, it just says "Attempting to download latest patch. Status: [3: 14]" and nothing I think the player ID on my computer must be completely wrong, because I was a perfect player once. Anyways, I did that (with the "Try again" option). It says "Error in updated file, retrying later" and then gives me the same error again. I am kind of lost here, if anyone could help me, I'd greatly appreciate it. Sims 3 1.57 patch Please help me!
